

Set source options

Source 0 - Parallel beam from the front

Lower x-bound on source (cm)

Upper x-bound on source (cm)

Lower y-bound on source (cm)

Upper y-bound on source (cm)

Angle of the beam relative to the X-axis

Angle of the beam relative to the Y-axis

Angle of the beam relative to the Z-axis

Specify source beam energy or energy spectrum filename:

☒ **monoenergetic**

Kinetic energy of beam (MeV)

OR

☐ **spectrum**

Spectrum filename (complete):
